EX-PEACH KINGS WILL BATTLE ALL-STARS IN BENEFIT GAME

Crack Thompson Products Team Of St. Catharines With Georgie Zuke On The Mound Will Cross Bats With A Smart Fruit Belt Outfit Tomorrow Night At School Grounds.

It looks like big night for ball fans at the local ball yard tomorrow (Friday) night when the big benefit game for one Don Miguel Sweet will be staged. This game from the sports pinnacle looks like it will be one of the best ever pulled off on the local lot.

As visiting team we have no less an outfit than the Thompson Products team from St. Catharines and stacked against this outfit will be an all-star aggregation picked from the Fruit Belt League. This Teepees team for some years past has been considered one of the best Senior "A" teams performing in the O.A.B.A. They have in past years knocked off a couple of championships and been in the final playdowns a half a dozen times.

This year TeePees are stronger than ever, particularly in the pitching box where our own Peach King centre ice player, little Georgie Zuke, has been doing a terrific job. The lad may be small in stature but he is big in softball pitching. Then along with him we have that grand lad, Tufford The Earl, who for eight years wore a Peach King hockey uniform. The native son of Beamsville has been a member of TeePees for some years and holds all the batting records for home runs and base hits that it is possible for one man to hold in the O.A.B.A. He patrols the right field. He was a swell right winger for Peach Kings and he is just as swell a fielder for TeePees.

(Continued on Page 9)

WELL, WELL! LOOK WHO'S HERE

There were not many homes between Stoney Creek and Jordan, up to a few years ago, that this trio had not splashed paint and threw paste and wall paper around in. This picture was taken a good many years ago and at least one of them is still on this mortal coil. Who are they?

GRAPE GROWERS OF CLINTON CLAIM GOVERNMENT COERCION

HOSPITAL OPERATION CLOSE TO ESTIMATE

442 Patients Admitted First Six Months Of This Year—130 Operations Performed—113 Babies.

An interim report of West Lincoln Memorial hospital for the first six months of 1947, ending June 30th, shows that the hospital is operating pretty close to the estimated budget. While some items used are down in price, drugs and supplies have increased, but on the whole the institution is very close to the estimated cost of operation.

During the six months period the total admissions to the hospital were 442; there were 130 operations and 113 deliveries; 220 X-Ray examinations; 3,228 patient days; total average stay per person was seven and one-half days.

Despite many handicaps the hospital has met all requirements and many expressions of appreciation for the service have been received.

The Medical Council have requested the Board of Directors to provide an additional 24 beds. A request for additional space including laundry has been taken up with the Department of Health, Toronto.

In keeping with the Municipal subsidy arrangement, five municipal councils are now represented on the Board of Directors.

PEACH KING DAIRY STARTS DELIVERY

Grimsby's new dairy, The Peach King Dairy, has commenced the daily delivery of milk in town. All deliveries will be made early in the morning before nine o'clock.

Deliveries will be made of Guernsey, regular, homogenized and Krimko chocolate milk, cereal cream, whipping cream, cheese and butter.

As yet the new delivery trucks have not arrived and deliveries are being made by car.

The operators of the Peach King Dairy are Thompson and Son, who recently opened the new Peach Dairy Bar on Main east.

PEACH PRICES SET

The report of the arbitration board on the price and grade of peaches was announced last Thursday. The board, necessitated by the inability of canners and growers to agree on prices and grades, comprised W. I. Dryan for the canners, W. C. Nickerson for the growers and Judge Currey of the Manitoulin Islands, arbitrator.

The Board concurred in last year's agreement as to price and grades for the current season.

The price to the canners will be "V" varieties four and one-quarter cents a pound, \$85 a ton; Elbertas, four and one-half cents a pound, \$90 a ton; Jubilee, five cents a pound or \$100 a ton.

GRIMSBY, ONTARIO, THURSDAY, AUGUST 14th, 1947

BIG ADVENTURE FOR CHILDREN

Entering School For First Time In September Will Be A Big Event In The Eyes Of Many Little Tots—Parents Should Have Child Thoroughly Examined By Family Physician.

During the next couple of weeks, many parents will be getting their young child ready to go to school this fall, because some hundreds of children always enter school for the first time in September. Unfortunately, comparatively few parents really take the proper steps to see that a child is fit for his first big adventure, because the first day of school is a big event in the life of any child.

Responsibilities increase for both the child and the parent, but the child cannot know what should be done for him as the entire responsibility for his health rests on the parent.

At many schools the principal will arrange for parents of the young child to register with the school. This gives the principle an opportunity of knowing how many to prepare for, and it gives the teachers in the junior grade a good opportunity of meeting the parents. Some schools have a regular day and invite parents and children to be present. At these meetings a public health nurse is usually present to answer any questions.

HIGH SCHOOL PUPILS SET A HIGH RECORD

16 Of 21 Candidates Passed All Their Departmental Examinations In Upper School—This Is Exceptional Average.

By ART BRYDON

Grimsby High School's retiring principal P. V. Smith has reason to be proud of himself and his 1946-47 staff. The results of the annual Departmental examinations were released this week and they provided a reason for great exultation among the students of last year's upper school class. The complete results are printed herewith and if you examine them closely you will see that 16 of the 21 candidates passed all the exams that they tried. We think this is an exceptionally good average and the independent offers its congratulations to Mr. Smith and his staff on a job well done.

Pupils made good showing with 88% of all exams passed successfully.

WATERWORKS SYSTEM TAXED TO CAPACITY

Hot Wave Causes Consumers To Use Great Quantities Of Aqua Pure—Fruit Growers Pleased.

The extremely hot and humid weather of the past five days has placed a tremendous strain on the waterworks system. While no new record, for a 24 hour day pumping had been set up, still the system was dangerously overloaded.

Supt. Andy Henderson states that the high record for one day had been very close to being shattered on three days, but up until noon on Wednesday it still remained intact.

Owing to the very small capacity of the reservoir it has been necessary to keep the electric pumps going 24 hours a day and to use the gasoline pump every day for some hours. On Tuesday the gas pump was used for five hours steadily.

Grimsby farmers over the hill say that rain is badly needed but as yet the crops have not been damaged although they are getting near the danger point.

Fruit growers are not pessimistic over the heat as they claim it is more or less beneficial to the fruit and will hasten the ripening of the peach crop.

ONTARIO MILK BOARD CAN'T RULE THE TOWN OF GRIMSBY

THE "BOSS MAN" AND HIS SONS

This impromptu picture was snapped at Vineland recently by The Independent Staff Photographer, Robert Allred, and depicts Brigadier Armand A. G. Smith (centre) and his two sons, Major Llewellyn Smith (left) and Mr. Alastair Smith (right). The occasion was the annual picnic of the employees of E. D. Smith and Sons, Winona.

MANY MEN UNCONSCIOUSLY BENEFIT THEIR FELLOW MAN

NEW MINIMUM RATE FOR WATER CONNECTION

Councillor Mitchell Claims It Is Too High And People Are Being Penalized For Using Water.

In the opinion of Councillor Wm. Mitchell, North Grimsby council are penalizing the people of the township who wish to have water services. He contended at township council session on Saturday that the charge of \$30 for making a water connection, as provided for under the recently passed waterworks bylaw, was excessive and would stop citizens from taking water. Council did not concur with him in this argument.

Under the new bylaw a citizen must first make application to the Township Clerk for a permit to have a water connection made.

The cost for making the connection including water meter, will be a minimum of \$30, which the applicant must pay before the water is turned into the service. In some cases the connection cost will be much higher according to what it costs over and above the minimum to make the connection.

A new set of mobile steps have been completed at the Neilson Road bathing beach at a cost of \$100, of which the Lions Club will pay one half. The road allowance at this point has been widened and levelled and a fair sized parking space for angle parking has been provided. A

DR. MATHER ASSUMES NEW MEDICAL DUTIES

(Burlington Gazette, Aug. 7th)

Dr. J. M. Mather, the newly appointed head of the Halton County Health Unit, will commence his duties in the county next Monday. Under the new set-up all Boards of Health, Medical Health Officers and Sanitary Inspectors throughout the county, cease to be, and the entire Health set-up comes under the County Unit. Assisting Dr. Mather will be other Medical men, Sanitary Inspectors and Health Nurses. Dr. Mather has been engaged for the past few months in Lincoln County. He expects to take up residence in Burlington or the vicinity as soon as he can secure a house.

The first couple of weeks will be spent in organization work and becoming acquainted with the medical men of the county. Dr. Mather stated to the Gazette, while on a visit to our office last week, but he fully expects to have this new system in operation by September.

(Continued on Page 9)

PLUM, PEAR PRICES

Representatives of canners and growers met in Hamilton last Friday to set the 1947 figures for canning purposes. Prices arrived at were for pears, plums and prunes. The price of peaches was set earlier this week. The delegates met yesterday under the marketing scheme as set up under the Ontario Farm Produce Marketing Act. The negotiators have arrived at the following figures which are read in comparison with last year's prices.

BAKELIT PEAR—No. 1 grade sell at three and a half cents, the same as last year while No. 2's are at three and a quarter cents, slightly lower than last year's price of three and a half cents.

KIEFFER PEARS—No. 1 grade will be three cents again this year but seconds are down to a cent and three quarters from last year's price of two cents.

All varieties of plums have the same price with the exception of prunes. They were three and a quarter cents last year, reduced this year to two and three quarter cents. There was an open price on prunes last year so that no comparison is possible. The 1947 price is four cents a pound.

That Was Most Emphatically Emphasized Last Night At Town Council Meeting—Grant License To Peach King Dairy To Peddle Milk Anywhere In The Town—Council Will Not Stand For Dictatorship.

Without pulling any punches, and being most emphatic and direct in their statements, Town Council in regular session last night passed a motion that plainly and bluntly told the Ontario Milk Board that they could not run the Town of Grimsby.

Mayor Henry Bull, backed up by every member of council, was most emphatic in his statement that the people of Grimsby had passed through a five year war to beat Hitlerism and they were not going to stand for any more of that kind of dictatorship right here at home.

In the words of Mayor Bull "this is a democratic country and cannot and will not be run by people from the outside without the people concerned having a say in the matter. Moreover, we are not going to stand for a monopoly."

There is not a doubt in the world that Town Council is going to force this whole issue out into the open, and The Independent is backing them to the last ditch. They are going to find out who is running the Town of Grimsby, the Ontario Milk Board, or the Town Council, who are the elective members of the people of the Town of Grimsby. To back up their decisions, the following motions were introduced and passed unanimously:

Hewitt-Price — That this council authorize the Clerk to write the Ontario Milk Board, that this council has given the

PROMINENT DISTRICT PHYSICIAN CALLED HOME

DR. C. W. ELMORE

After many years of untried service in a little community, Dr. Cameron W. Elmore, coroner for Lincoln County and medical officer of health for Clinton Township and Beamsville, died Tuesday afternoon at the family residence, Beamsville. Loved, respected and admired, the genial doctor has for nearly 40 years held the trust and confidence of a large practice. During the long war years, although not well himself, he carried on alone in a community which needed three doctors.

Just a year ago now Chin Ham sold his property and little old frame house on Main street to Thompson and Son of Smithville. He regretted this deal almost as soon as he had signed the final papers and banked the final check.

But, he had done something that has turned out to be a grand thing for his fellow citizens. In the place of his little, old, tumble-down house, Chin Ham, Grimsby's erstwhile Chinese laundryman, was one of those men. He did something that he regretted. He did something that created a development that has been and will be a great benefit to the citizens of Grimsby and district.

Just a year ago now Chin Ham sold his property and little old frame house on Main street to Thompson and Son of Smithville. He regretted this deal almost as soon as he had signed the final papers and banked the final check.

With the closing down of the laundry the people were at their wits end as to where they were going to get their washing and ironing done. It was tough for a

FACTS & FANCIES

Frank Fairborn, Jr.

THE TRUTH

A wise man said the other day that perhaps one reason the dollar will not do as much for you as it used to is the fact that no one wants to do as much for a dollar as they used to.

Isn't that the truth?

RULES FOR A SHORT LIFE

To create the impression that you are a very busy man, always speed up when approaching intersections.

When passing others cars pick out a suitable spot on a hill or curve. There's no fun in passing on the straightaway.

Use only half the road, but be sure it's the middle half. Then you won't run over the edge.

Considerable time may be saved in driving out of alleys by stepping on the gas just before reaching the sidewalk.

Pay no attention to grade crossings. Let the engineer do the worrying. He gets paid for watching the right-of-way.

Don't wait for the green light. It will be along in a minute, anyhow; a red one will do in a pinch.—Guelph Mercury.

TOO MANY HITCHERS

Travelling along our highways reveals that there are more hitch-hikers than ever, comments The Windsor Star. There are few men in uniform seeking rides today, but the civilian roadside solicitors seem to be on the increase. It is approaching the proportions of a major nuisance.

Except in rare cases, there is no excuse for hitch-hiking. Most of those engaging in the pursuit are quite able to pay their fares wherever they wish to go, and are merely trying to save some money at the expense of others, and usually only for the purpose of taking pleasure jaunts.

Hitch-hiking is dangerous. In the first place, the wise motorist does not pick up strangers, because he should know of many cases in which such charity has merely given the opportunity for robbery or worse. Aside from this angle, the impulsive ones too often encroach on the highways themselves, causing traffic hazards. In the rare instances where drivers stop to offer a lift, their very action endangers those coming behind them, with the heavy travel at present on the roads.

THE FRIENDLY SPIRIT

One of the best ways of convincing yourself that most of your fellow citizens are, after all, pretty friendly and kindly folk, is to take a vacation tour by automobile. Provided you go about it in the right way, you can really meet people and talk to them. And it has the advantage that you meet them on their own ground, in their native environment, rather than the artificial basis which would result if they too were on vacation.

You will meet all sorts of people this way, says The Chatham News.

Such a trip will bump you up against filling station employees, garage men, inn keepers, housewives who have "Rooms for Tourists" on signs in front of their homes, tea room hostesses, lunch counter waitresses, and an infinite variety of chance acquaintances in other automobiles. And nothing could be much more surprising, or pleasing, than the way in which ninety-nine per cent of these people will turn out to be men and women whom you are glad to have for fellow countrymen.

Perhaps the automobile has brought a change in our national character; perhaps the people of this country always were agreeable; whichever way it is, there isn't any medicine much better for a man than the series of personal contacts that arise during an extended tour.

You can travel thousands of miles without finding for instance, a filling station man who doesn't go out of his way to be helpful and obliging. You could usually write on a

postage stamp the names of all the people at overnight stopping places who are anything but exceedingly pleasant. A telephone booth could hold all of the peevish or inattentive waitresses you are likely to encounter. And if you get through a moderately long trip without encountering a good many other tourists whom you would really like to know, you are less fortunate than most.

All of this, of course, is an old story to anyone who has done much cross-country driving. But it is worth repeating, somehow, for it provides a wholesome and encouraging background for the day's grist of news, which now and then does get a little depressing.

Read the day's record of our follies, our crimes and our passions, and you sometimes are brought close to despair. Get out and see your fellow-countrymen as only a roving motorist can see them, and you revive your faith.

TIME FOR THOUGHT

Take time out for thought—spend a few minutes each day in considering the other fellow, in considering your own actions and deeds. And when you are in that frame of mind take counsel from the following excerpt taken from an Episcopal Church paper as published in the bulletin of St. Thomas' Church:

1. You cannot bring about prosperity by discouraging thrift.
2. You cannot strengthen the weak by weakening the strong.
3. You cannot help small men by tearing down big men.
4. You cannot help the poor by destroying the rich.
5. You cannot lift the wage-earner by pulling down the wage-payer.
6. You cannot keep out of trouble by spending more than your income.
7. You cannot further the brotherhood of man by inciting class hatred.
8. You cannot establish sound security on borrowed money.
9. You cannot build character and courage by taking away a man's initiative and independence.
10. You cannot help men permanently by doing for them what they could and should do for themselves.

SHORT SHIFT

In the newspaper world the day of personal journalism is gone, but recollections of the colorful era still crop up.

In the midst of a bitter rivalry between two small Southern newspapers some years ago, one of the editors stole a march on the other by slipping a new high-speed press into his establishment one night under the cover of darkness, and announcing grandly soon thereafter:

"Fellow-citizens you are invited to come and see our magnificent press next Tuesday. This press, which will print, cut and fold 10,000 copies of an eight-page paper in an hour will be placed in operation at exactly 3 p.m."

To which the rival journal rejoined with

'WAY BACK WHEN

Frank Fairborn, Jr.

FIRST SUNDAY CARS FIFTY YEARS AGO

Innovations in public services often meet with a hostile reception. When electrical horsepower was substituted for animal horsepower on Toronto street cars in 1892, the opposition which developed included a newspaper which said that the telephones would be put out of business and pedestrians slaughtered if this outrage were permitted.

At that time another street railway issue was being hotly debated—one which was to be fought for years and which resulted in a particularly bitter controversy because it involved religious beliefs. The issue was Sunday street cars. And while the first vote was taken in 1892, it was not until 1897 that Sunday cars were finally approved on a third appeal to the electors. They were first operated on May 23 of that year. Last Friday was the fiftieth anniversary of Sunday street cars in Toronto.

Sunday transportation is today regarded as so much a matter of course that it is difficult to realize the bitterness of the division which the issue caused in the nineties. The Sunday proposal was defeated in 1892 by 3,826 votes, in 1895 by only 973 votes, and carried on May 15, 1897, by a majority of only 221.

The late Hon. Sam Blake, a leading churchman, a lawyer of unusual ability, and a man with a sharp tongue which he did not hesitate to use to the discomfiture of those having opposite views, led the anti-Sunday-cars forces. Many of Toronto's most prominent citizens enlisted under his banner. While Mr. Blake, a low churchman, denounced the proposed innovation, another Anglican, Rev. William Clark, D.D., of Trinity university, led the high church party which supported the change. At a meeting of Anglican clergy in 1891, the bishop and 57 ministers were against Sunday cars, Canon Dumoulin and 7 others in favor.

The anti-Sunday-cars forces not only on the score of Sabbath-breaking, but on account of the noise they would make; a disturbance, it was claimed, of Sunday services. Sir Frank Smith, at that time president of the street railway company, was a Roman Catholic, and some opponents made the remarkable charge that Sunday operation was "a Romanist trick." Most Catholics favored it, but not on Sir Frank's account.

The argument that Sunday cars would enable working people to take their children to the beaches proved somewhat of a boomerang because of the anger it aroused in many quarters. In fact all phases of the discussion seemed to result in anger. The issue became so hot that there were fights at some of the public meetings. Families were divided. Neighbors did not speak. There has probably been no such division of opinion in Toronto on any question since that time. There was even a campaign song to the tune of "Marching Through Georgia," and the last line was "No Sunday cars for Toronto."

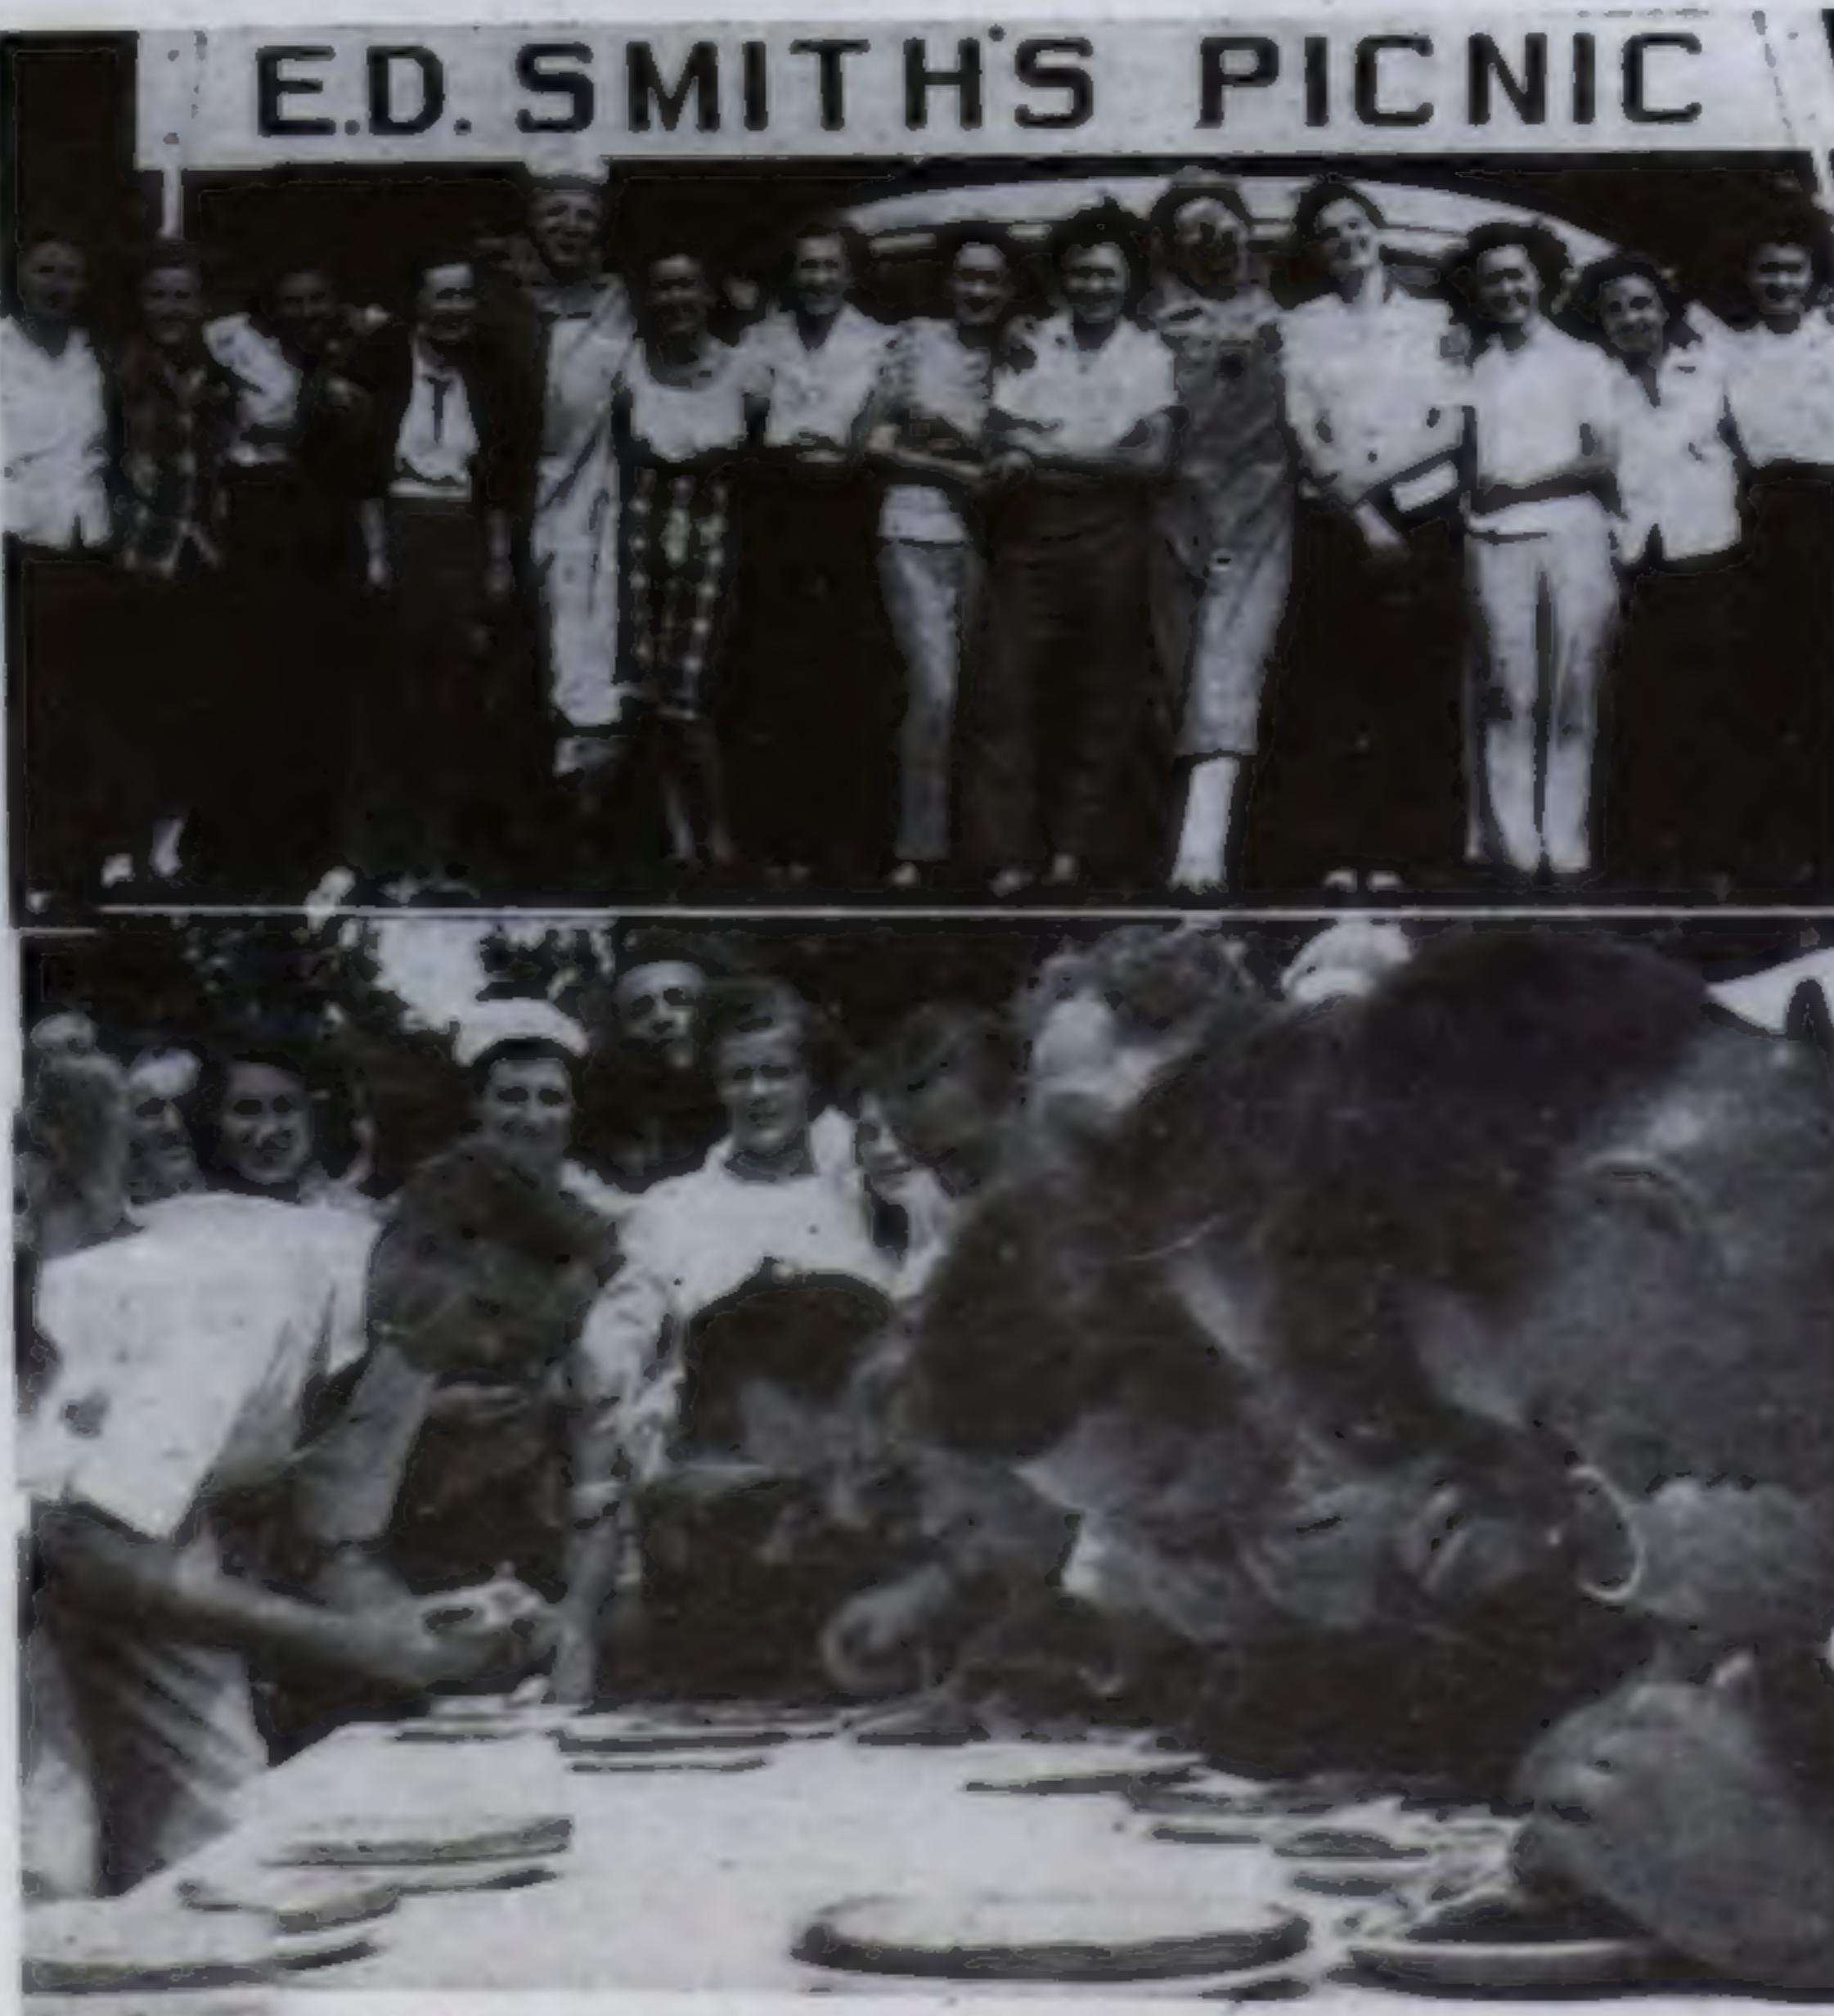

Nowadays, when private and public transportation crowds the highways, the struggle against Sunday street cars in the 1890's seems unreal. But there can be no question of the sincerity of those who voted in opposition. And however mistakes they may have been, they had a religious zeal which has its place in the life of any city.

Be punctual, fellow-citizens, when you go to see that grand new press Jim Bascomb is bragging about. Be there promptly at three. For exactly at 3:04 his entire circulation will have been printed and can call it a day."—Wall Street Journal.

Man is the only animal that can be skinned more than once.

Always do right. This will gratify some people and astonish the rest.

There is only one rule for being a good talker; learn to listen.

good fellows and gals get together for a day's fun you never can tell what will happen a whale of a time with the clowns at the annual employees picnic of the firm. In the lower photo The Independent Staff Photographer, Robert Aldrich, snapped a group of male

Eaton's order office has a new coat of paint.

Lady Byron Dress Shoppe has a new coat of paint.

Who is the man that went swimming in the goldfish pond on Main west.

It is not true. Bob Hillier does not wear a girdle. Ask him and he will show you.

The Russ apartment block has been sheeted with fire-proof "brick" sheeting. A great improvement.

Every day is Saturday in Grimsby stores. Those cash register bells are Sweet Music to my ears.

Supt. of Works Lawrie casting his critical eye over the Statutory Labor job that Herb. Bettner and ex-Sergeant Mogg did on Kidd avenue.

Who is the local fisherman that went up North and took his feather bed with him? And who is the gossook that caught the chunk of cordwood?

Those are three nice houses and properties that the soldier boys have built on Upper Oak street. One of them even has a miniature fence around it.

Believe it or not, but "Fish and Tickle" Scott has blossomed out as a meteorological expert. He is recording Grimsby weather in the absence of Vernon Tuck.

Despite long hours, hard work and the hot weather, this columnist has put on three pounds in weight in the past month. Reason? Four Peach Bar milk shakes a day.

Prexy Tom Collins of Winona, taking the Fruit Belt League silver cup into Starr Jewellery Store to get a silver shield on it, proclaiming to the world that Winona are softball champions.

This columnist was queried the other day, "had your holidays yet?" The answer was "No, do you realize that policemen and newspapermen never take holidays? If we did what would become of you poor mortals in our absence?"

If "Bob" Beamer and his Maple Grove Farm (fresh eggs, fresh milk, no wonder the city people all eat fat) doesn't put a down town office in operation next year, The Independent is going to charge him a commission for information services.

It's too bad the Chief Turner did not see, and lock up, those six light-headed farmettes that were doing the zig-zagging performance down the centre of Main Street on Thursday night. If a motorist had clipped one of whom would fault him? That stuff is all right on carnival nights when everybody is doing it, but not on ordinary nights.

This columnist is of the opinion that Halton County is going to be not only a more healthy county, but a better county in a lot of ways, now that Dr. "Jimmy" Mather has taken command of things. I know that Eddie Harris, Editor of The Burlington Gazette is not going to like this crack, but it is Eddie's own fault. He is the man responsible for the establishment of a Health Unit in Halton and the taking of Dr. "Jimmy" from our midst.

Don't blame it all on the fruit grower. Put a little of the blame on the shyster storekeeper in the small towns and the big towns for that matter. Last week a Grimsby man stopped in front of a grocery store in a small burg in Western Ontario. On display were a bunch of puny peaches. On the basket handles was the name of a well known Fruit Belt grower. This man made the remark "that man never picked and shipped that 'crop'." He was overheard by the grocer. On his return trip the man stopped at the store again. The name of the fruit grower on the baskets had been stricken out by crayon. That grocer was trying to make capital out of that grower's name and reputation for quality fruit. Mr. Grocer should be prosecuted.

This is a tough world. Harry Biggar, the Fruit Belt Cherry King goes out and wins another Futurity with his good trotting colt, that makes two this year, one last year, and he is headed, without doubt to cop the big \$5,000 Futurity the latter end of this month. Old Sep Palin, past the 70 year mark, down in Goshen, N.Y., last week won his second Hambletonian Stake behind that good Scotch trotter, Alex Mox. The blood is stirring on Main street. Young Scott, Jimmy Lawrie, West The Barber and races. Truly decided to buy a good colt and go to the M.A. SAYS NO. Now what are you going to do with a woman like that? Kirby Bettis, you can have wins quarter. SH-h-h-h-h-h. I'll bet you when he's the next year's Futurity, Ma will be there and put wreath of Cole's roses around his neck.

You may often regret your speech, but seldom will regret your silence.

Many a man gets a job on a blast furnace to keep the home fires burning.

The only man who ever succeeded through watching the clock was a train dispatcher.

It is true there is always room at the top, but it is not reached by one who sits down and waits for an elevator.

BIG ADVENTURE
In regard to health that the parent may ask.

You all realize that health is a child's greatest asset; on it depends to a great extent the length of time he will live and the happiness he will derive. If people are to be healthy in adult life, parents must make sure that the child is as healthy as possible, and he must be protected against all unnecessary illness.

During the summer the child should be carefully examined by the family physician to see that he is physically fit for the arduous routine which will be his for the next several years. Our educational system is based on a child having normal hearing and vision; we know that a defect of either may be responsible for a child not making good progress in his school work, so the physician examining a child will pay special attention to hearing and vision.

The throat is carefully examined to make sure that the tonsils are not enlarged. If they are large enough to cause difficulty in breathing, or if there is a history of chronic tonsillitis, then it may be wise to have them removed. This is especially true if the glands in the neck are enlarged or if the physician finds that the tonsils are diseased; because rheumatic fever, heart disease or joint infections, may follow periodic attacks of tonsillitis. If the child is a mouth breather adenoids may be preventing him from growing properly; if this is the case, then these should be removed.

The heart is perhaps the most important organ in the body which should be examined before the child starts school, as much more strain is put on the heart than ever before. Examination of this organ must be made carefully, and if any defect is found, written instructions should be given by the physician to the principal of the school so that the school work may be so regulated that the child's heart will not be given extra strain during school life.

Post of the health of a child; thinking physician should show then the to stand and walk him around the parent should correctly, and the child follows make sure tuckona. During his out these instroous system of a school life the neasidable extra child is put to com should look strain, so the physician shu in for the beginning of nervous instability, which if found early may be cured. The first sign many of these conditions twiching of the muscles of

face of eyes; should the parent notice this, the child should be examined at once. His whole future may depend on early recognition of this early symptom of a severe nervous disease called "chorea" or "St. Vitus Dance."

In his examination the physician will look over the child from head to foot. The physician will discuss with the parent whether or not the child's diet is sufficient and correct. The physician will also discuss with the parent the question of immunization, because the child who starts to school is in close contact with other children; because of this, most of communicable diseases are contracted during the school year. If the child has not been protected against smallpox, diphtheria, and whooping-cough, then the physician should immunize him against these diseases. If the child has previously been protected, then re-enforcing doses of these preventive mediums should be given.

Not only should the child be examined by a physician before he starts to school, but during the summer the child's teeth should be carefully examined by the family dentist, not only to make sure that the baby teeth are in good repair,

HA - FEVER NOTE

Sufferers from hay-fever and so-called "rose colds" should avoid swimming during seasons when they are most subject to those unpleasant disabilities, according to health authorities. Those who suffer severely from hay-fever are advised to think twice before they go swimming at all. Chronic inflammations of the nose and throat make this advisable.

HANDS AT WORK...

LEARNING REFRIGERATION

ONTARIO'S productive capacity is the measure of her future prosperity. To assure this province a prominent place in domestic and foreign trade markets, skilled hands are needed. Increased production of refrigeration units will mean a greater need for skilled servicing. Veterans, basically trained in schools and ON THE JOB, will fill this need as they are absorbed into industry. For those who have mastered skilled occupations, higher wages, job security and better working conditions are within easier reach.

Through plans sponsored by the Department of Veterans Affairs and other agencies, hundreds of young workers are being trained for refrigeration servicing. Graduates of training schools are ready now to take their places in industry. Craftsmen of the future, they will have a share in Ontario's progress—an important part to play in her industrial development.

REFRIGERATION

D. C. Guiry, 23, of Toronto, a veteran of 15½ months' service in the Royal Canadian Air Force, is shown checking the operating pressures on a domestic training unit.

The Refrigeration Course gives the student a theoretical and practical knowledge of domestic, commercial and air conditioning units.

Mrs. Edward Cowell is visiting her son, Orland, in Tonawanda, N.Y.

Mrs. Mabel Glover, South Boston, Mass., is visiting her niece, Mrs. F. Hitchman.

J. O. and Mrs. Spence are on a motoring trip to the Maritimes and the New England states.

Mr. and Mrs. Alec Anderson have returned from a week's visit with relatives in Detroit.

Edwin Wilson, Toronto, was a Sunday visitor at the home of his aunt, Mrs. A. R. Hayhoe, Elizabeth St.

Misses Kay Pyndyk and Lillie Laube are spending a week in Ottawa, the guests of Mr. and Mrs. George Laube.

Mrs. Estee, who has been spending a few weeks with Mr. and Mrs. Fred Reiss, has returned to her home in Hamilton.

Mr. Oscar Collins of Niagara Falls, N.Y., spent a few days with his sister Mrs. Wallace Rossell of Grassie, last week.

Professor Bertram F. Wilcox, of Cornell University, and Mrs. Wilcox, are the guests of Dr. and Mrs. Neil M. Leckie.

Miss Jean Holden has returned to Hamilton after spending a week with her parents Mr. and Mrs. Wallace Rossell of Grassie.

Mrs. Lawrence McGaughay and family, of Lindsay, spent the week in Grimsby with Mr. and Mrs. Richard Gerow, Fairview Ave.

Mr. and Mrs. James Gillespie, Park Road, Grimsby Beach, will be at home to their friends on Saturday afternoon, August 16th, from two to six.

Arthur Howard, a former Grimsby resident, who now spends most of his time basking in the Florida sunshine, is renewing old acquaintances in town.

Mr. and Mrs. A. L. Nimmo, of New York City, who have been spending their vacation with the latter's parents, Mr. and Mrs. W. H. Barnim, and sister, Mrs. W. L. Byford, returned last week to their home.

Anne Marie Passer, daughter of Mr. and Mrs. Gerard Passer, Main street east, has been successful in passing her Upper School examinations at St. Joseph's College School, Toronto. She wrote on 11 subjects and received 10 First and 1 Second.

The Hermitage, one of Grimsby's historical homes, owned by Mrs. J. E. Randall, direct descendant of Colonel William Neille, who originally received this property as a land grant from the Crown, has as its guests Mr. and Mrs. Murray E. Randall and their son, Bud, of Wimmetka, Ill. Mrs. Chester A. West, daughter of Mr. and Mrs. Randall, is also visiting her grandmother, Mrs. J. E. Randall, with her husband, Dr. West, and their two daughters, Suzanne and Patricia, from Evanston, Ill. The two little girls are the seventh generation to live at the Hermitage.

A New York university now has a course for traffic policemen. They probably wrote out their own ticket.

A foreign physician claims he can hypnotize bears and lions. We would like to see him try out his talent on a seven-year-old boy.

STUDY IN BLACK AND WHITE

By ALICE ALDEN

This unusual jumper style dress in black taffeta with nipped-in waist is perfect for afternoons. Complemented by the soft white blouse with enormous puffed sleeves, the little white collar smartly finished with a black bow, it makes a charming study in cool black and white.

Fluptials

BRIGNULL-HOWEY

Rev. A. C. Eddy officiated at the wedding in Centenary United Church, Hamilton, on Saturday, July 26, when Doris Vivian, daughter of Mr. and Mrs. Charles Howe, was united in marriage during a double-ring ceremony, to Mr. Ronald Clarence Brignull, son of Mr. and Mrs. George Brignull, of Hamilton, formerly of Peterborough and Detroit, as well as Grimsby.

The bride, given away by her father, wore a white gabardine suit, styled with a fishtail back effect, her accessories being white and her corsage of red and white roses against a background of feathers.

As matron of honour, Mrs. Cecil Baker wore a blue gabardine suit, her flowers being yellow roses. The little flower girl, Joan Stevens, was dressed in blue taffeta embroidered with pink flowers, and her corsage was sweet peas.

Mr. Leslie Brignull was best man for his brother. Later, the guests were received at the home of the groom's parents, 197 Belmont Ave. The bride's mother wore an orchid frock with black accessories and corsage of gardenias. The mother of the groom was in a black and white jersey frock with accents in white. Gardenias also formed her corsage.

After their honeymoon trip to the United States, the couple will reside in Hamilton. For going away, the bride was attired in a baby blue suit, with accessories in white.

HILL-SCHMUIR

Miss Margaret Grace Schmair and Mr. Charles Albert Hill were the principals in a charming nuptial ceremony July 26 in Calvary Baptist Church, Brantford, 3 p.m. Rev. C. C. Boyter heard their wedding vows. The bride is the daughter of Mr. and Mrs. William J. Schmair, 18 Lawrence St., Brantford, and the groom is the son of Mrs. Della Hill, (formerly of Grimsby) 11 Huron St., Brantford, and the late Mr. W.A. Hill. She is a granddaughter of Mrs. Elora Phipps, Grimsby.

The ceremony took place in a setting of mixed gladioli, and Mrs. J. Ruth played traditional wedding music. Accompanying the bride to the altar by her father, the bride wore a smart white gabardine blazer, white halo hat trimmed with sprays of lily-of-the-valley and veiling, matching accessories and she carried a dainty nosegay of gladioli, red roses and orange b-

A blazer jacket is a good wardrobe pal since it teams up with skirts to make a smart enough suit and goes well with a simple frock. Then, too, it has a bright, casual, young look that is very much in tune with fashions at this time of year. Navy and white striped flannel is used for this cardigan-necked blazer, and there are gored patch pockets. It is shown here with a white flannel skirt and navy blue sweater blouse which makes a mighty fine country or resort combination.

Births

HUDSON—To Mr. and Mrs. Kenneth L. Hudson (formerly Olga Dore Merritt), on August 7th, 1947, at Mount Hamilton Hospital, a daughter, Susanne Dore.

Card of Thanks

Mr. and Mrs. T. Branson, of Port Dalhousie, wish to thank those who went to the assistance of their son who had his hand badly injured at Grimsby Beach on Friday night last.

Engagement

Mr. and Mrs. J. R. McVicar announce the engagement of their daughter, Margaret Anne, to Mr. Thomas J. Prestney, son of Mr. and Mrs. T. B. Prestney, Hamilton. Wedding to take place quietly on September 8th, 1947.

In Memoriam

GODDEN—In loving memory of our dear father, Holden Godden, who passed away August 11th, 1930.

Silent memories, true and tender. Just to show we still remember: And while he rests in peaceful sleep His memory we shall always keep.

—Always remembered by Beatrice and Charlie.

GREEN TREES GUESTS

Mr. and Mrs. Paul J. More, East Greenbush, N.Y.; Mrs. J. S. Wyatt and Mrs. E. Burkhardt, Meadowville, Pa.; Mr. and Mrs. W. Motto, Gary Indiana; Mr. Wayne Denning and Mr. Jas. Briggs, Lansing, Mich.; Mrs. W. H. Blake, Kingston, Ont.; Mr. Peter Winter-Sobotka, Minneapolis.

Dr. and Mrs. M. Shapero, Toledo, Ohio; Mr. and Mrs. J. E. Muller, Chicago, Ill.; Mr. and Mrs. J. E. H. Clough and Miss Clough, Oshawa; Mrs. Hunter, London, Ontario.

Pa.; Mr. and Mrs. Clarence Molr, Abilene, Kansas; Miss Alice Murray, Miss Eva Carr, Miss Carolyn Bruce, Buffalo, N.Y.; Mr. and Mrs. Robert M. Colvin, Charleroi, Pa.

DEMURE FORMAL

By ALICE ALDEN

Sweetly demure, or demurely sweet, whichever you like, is Marie McDonald in this black spider web formal, which boasts a scalloped round collar of white organza as its only decoration. The dress has drop shoulders and a snugly-fitted bodice which breaks into a full, flared skirt.

SPORTOLOGY

(By Bones Livingston, Sportologist)

WINONA ARE THE CHAMPIONS—After a strenuous two game series against SMITHVILLE that crack little team from WINONA emerged victorious and are now the acclaimed champions of the FRUIT BELT League. In the first game they triumphed over their southern cousins by an 8-7 score and came back last to grab the second stanza by 5-4. Congratulations, boys, but remember the story might have had a different ending if OLD SMOKE McBRIDE'S gang had not lost the services of their pitching ace, GORDIE BUCHAN. PREXY TOM COLLINS and his league executive have guided the ball boy through a most successful season and with four teams of the league taking a crack at the Intermediate series "C" in the O.A.S.A. playdowns the league should at least go some place in that battle of bata.

A CASE OF SUN STROKE—Another Grimsby crew of lawn bowlers brought home a big silver cup on Saturday. ERICK SYDNER, ARTIE CLARKE and HARVEY TUFFORD of Beamsville, playing in the Irish Doubles at Fernleigh Club, Hamilton, coped the HIRAM WALKER cup in handy fashion. . . . Don't forget the MIKE SWEET benefit ball game at the public school grounds TOMORROW night. . . . PEACH KINGS of the hockey variety with their wives, kids and sweethearts had a picnic on the lake shore at Fruitland on Sunday. The boys received their new windbreakers at this time and they are pretty snappy outfit.

PEACH BUDS PLAYING IN THE JUNIOR O.B.A. MOTORCYCLE RACES AT BEAMSVILLE SATURDAY

At the Public School ball diamond on Saturday afternoon the Grimsby Peach Buds hardball team goes into action in the first game of their playdowns in the Ontario Baseball Association junior series.

And lo and behold! Who do you think they are to meet in this first round? No less a personage than their old mentor "Big" Rushton from Dundas and his Valley City kids. The big lad they claim has a fair bunch of horseshoe bowlers and will give the local lads plenty of action.

The return game will be played in Dundas on Thursday next week. The Buds have not had much opportunity to show their wares this season as they drew a bye in the O.B.A., but they have been practising consistently and are raring to go from the drop of the bat and give their old teacher an exhibition of real ball as well as trimming up his new team.

Be at the ball grounds on Saturday afternoon and give the Buds a boost.

DATES ARE SET FOR SOFTBALL PLAYDOWNS

In the first round of the Intermediate "C" series of the O.S.B.A. playdowns the Fruit Belt entries have been drawn as follows:

Monday, August 18th

Grimsby Mountain at Winona.
Grimsby at Beamsville.
Smithville at Fonthill.

Wednesday, August 20th
Winona at Grimsby Mountain.
Beamsville at Grimsby.
Fonthill at Smithville.

If, in any case, a third game is necessary the two teams involved will flip a coin for choice of playing field, and the date will be August 22nd.

Ho, hum! Foreign affairs continue to be mostly foreign to most people.

Ho, hum! Traffic lights seem to be forever red instead of forever amber.

TO STAY IN NAVY

Lieut. Philip Mountbatten, whose marriage to Princess Elizabeth has been given the King's consent, does not intend to leave the royal navy for the present. He has returned to his ordinary duties at the petty officers' training centre at Corsham, Wilts. He's shown here saluting as he reports to his course officer.

ANGLING CLUBS—Conservationists

By assisting in the work of restocking lakes and streams with game fish, angling clubs become an important factor in conservation.

"THE MASKINONGE" after a painting by Shelley Logier.

The Maskinonge, king of Canada's fresh-water fighters, is fast disappearing from many of our lakes. As a result, thousands of fishermen are availing themselves of modern transportation to reach hitherto inaccessible northern waters. True sportsmen at the same time realize that even in these new areas, the supply of fish is limited. They welcome and conform with legislation providing for the conservation of the "muskie".

"Boatmen and baitmen, hotel-keepers and guides feel the pinch when the fisherman drives further north because he can catch nothing but perch and sunfish in the lake that used to teem with bass and maskinonge."

* An excerpt from CONSERVATION and CANADA'S GAME FISH by G. C. Tisser, M.A., one in a series of pamphlets published by The Carling Conservation Club.

By PRUNELLA WOOD

This handsome coat with the flaring back, the full length, the expertly welted shoulder and pocket details, is really two coats in one, for it is provided with a woolen inner coat which zips out or in handily, to take care of the thermometer's whims as seasons change.

The fabric is elegant . . . a pure wool doeskin suede which is handsome in soft neutral or brilliant high colors.

Mainly For
MILADY

STRICTLY CANADIAN

By CLAIRE WALLACE

The correct handling of our flag, or flags of other countries, often troubles people, particularly clubwomen, who have to carry or hang the flag in a hall but are not sure of the right technique. It is easy to commit errors in this way and even unwittingly offer insult to our country. So to refresh the minds of all on flag etiquette, here are some pointers:

"We'll never let the old flag fall" is the right idea for it shouldn't be allowed even to touch the ground when we handle it. Nothing but a Bible should ever be placed on the flag and don't put the flag in a position where it can be struck by a gavel or any other object. In hanging the flag, it should not be draped but hung in straight lines. If you must have draped decoration in the hall or room where a meeting is being held and you want the motif patriotic, use red, white and blue bunting—not the flag. Remember, too, that the Union Jack is correctly hung with the broad white stripe at the top, nearest the flagpole.

Correctly, the flag is not flown after dark.

When flags of several countries are displayed together, it is etiquette for all the flags to be the same size. The flag of the home country is placed either at the left, as seen by observers, or should centre the display.

While the flag is being carried past, every pedestrian should stop, everyone sitting should rise, and every man uncover his head.

It is a breach of etiquette to embroider the flag on cushions or handkerchiefs and one of the things you never do is wear the flag as whole or part of a costume. And here's a tip: If you are wearing a badge of a flag—pin it on the left side, over the breast or on the left lapel of the collar.

When soiled, tattered or torn, the flag should not be washed or ironed but respectfully destroyed by committing it to flames.

As the song says "for we love it the best of all."

Question and Answer Department: My friend Marge telephoned the other evening to say a beau had tickets for a certain show and had invited her to go. Unfortunately, Marge had already been to the play and her problem was whether to accept the invitation and sit through it again or to tell the young man in a nice way that she had already seen it.

ANSWER: I think honesty is the best policy in a spot of any kind and advised Marge to tell the young man she had already seen the show. She still might enjoy attending it again, but if not, the young man would have the opportunity of exchanging the tickets and taking her to something they both would enjoy. Marge just had to take the chance that he would say "too bad" and invite another girl. Even so, he would probably appreciate her honesty enough to ask Marge out again.

"Misty" E. Montreal, writes: "If you are called from the table during dinner, what do you do with your table napkin? Should you drop it on your chair or leave it on the table?"

ANSWER: Don't drop it on the chair. Partly fold the napkin so it is neat and place it on the table at the right-hand side of your plate. That signifies you have not finished your meal. Otherwise, you would place the serviette at the left.

This brings up another etiquette point that often puzzles. At a formal dinner party, do you unfold the table napkin entirely? No, the table napkin is unfolded to just half its size and then placed over the lap.

Readers are invited to write Claire Wallace about their Etiquette problems. Address Claire Wallace, care The Grimsby Independent, Grimsby, Ontario, Canada. Replies will appear in this column.

THE GRIMSBY INDEPENDENT

TWO COATS IN ONE MODEL

HOW TO MAKE BEDS
THE CORRECT WAY

Making the family bed is an automatic part of each day's work for most homemakers. It may never occur to many busy housewives that there is a "best" way, a scientific way to make a bed and that cultivating the proper method is of tremendous importance to the family health and well being.

The basic requirement for a comfortable, well-made bed is, of course, a good mattress and spring which are free from bumps and sags, and are properly resilient. To equalize wear, a mattress should be turned, either from side to side or from top to bottom, every other week, at least, while the spring should be turned about twice a year.

After the bedding has been aired, the mattress pad should be carefully replaced, and be entirely smooth. The bottom sheet is laid over this and tucked under the mattress at the ends. The corners are then made in proper hospital fashion, and the side tucked in.

Six inches should be allowed for tucking in the blankets and the top sheet at the foot so that they will not be kicked loose. Blankets which come within twelve inches of the head of the bed let the sleeper drap in complete comfort, without having to struggle to keep his shoulders covered. A wide cuff of the top sheet turned down over the bedclothes will protect the blankets from soil. And, by the way, have you looked at the handsome summer blankets now in the shops? Good values, and a big aid in summer sleeping! Fluffy, buoyant pil-

lows add a final touch to the well-made bed.

The proper pillow is vital for sleep comfort. Before placing pillows on bed, they should be gently plumped up, forcing air through the feathers. Pillows should never be manhandled or beaten for that will only break the feathers and destroy their resiliency. Discard old pillows; these are antiques that have no value, no place in any scheme of things. Look upon fresh, clean, buoyant pillows as an investment in health and comfort that will pay increasing dividends.

HYDRO SPEEDS NEW POWER PLANTS

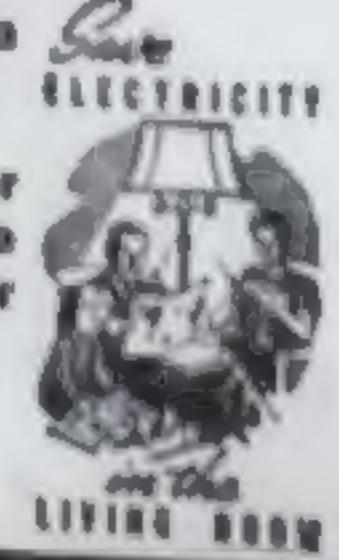

Hydro is pushing construction to meet the pressing demand for more electricity. The above huge generator will soon pour an additional 70,000 horsepower into the Hydro system from the DeCew Falls plant near St. Catharines.

Two other larger plants in eastern Ontario, now under construction, will deliver 81,000 horsepower next year and 360,000 horsepower by 1951. These two major developments, with the DeCew Falls addition, will provide Ontario with a further badly needed half-million horsepower.

The growing output of Ontario's industries and farms benefits everyone but calls for more and more electricity. Even now that the war is over, the demand has not slackened but continues to mount. Hydro's peak load increased by more than 500,000 horsepower over the highest wartime demand, an increase of 25%. Generating plants take a long time to build and could not be started during the war.

Few places in the world have as much electricity available per person as Ontario. However, we must use our electricity sparingly so that all homes, all farm services and all industries will receive their share.

Will you do your part? :: USE HYDRO
WISELY and we will be enough for all.

ORANGE CANTALOUP COCKTAIL

2 medium cantaloupes (3 cups cantaloupe balls), mint sprigs, 1 cup orange juice, 2 tbsp. lemon juice.

Cut cantaloupe into ball-shaped pieces with a French ball cutter. Mix together orange and lemon juice. Pour over the cantaloupe balls. Place in six dishes. Chill. Serve in the glass cups and garnish with sprigs of mint. (Serves 6.)

FLUFFY PUDDING

1 1/2 cups milk, 1/2 tsp. salt, 1/2 cup light corn syrup, 1/4 cup quick-cooking wheat cereal, 1 egg, separated, 1/2 tsp. almond extract.

extract, 2 tbsp. sugar. Scald milk; gradually add cereal and salt; cook over boiling water 20 minutes, stirring occasionally. Add egg yolk, corn syrup, almond extract; beat well. Whip egg white stiff; gradually add sugar, beating constantly. Fold into cereal mixture; chill in electric refrigerator. Serve with sauce. Yield: 4 servings.

RASPBERRY SAUCE

Pick over 1 pint raspberries; wash and crush. Add 1/4 cup sugar and 1/4 cup water; bring to boiling point; simmer 5 minutes. Press through sieve and chill.

TAKE A TIP

1. To prevent fruit from floating in gelatine base desserts, let the gelatine mixture chill to a syrup thickness — the consistency of molasses — before adding the fruit.
2. Save all juices and syrups to make dessert sauces and give added flavour to chilled drinks.
3. To keep cut apples, peaches and bananas from turning dark, dip them in lemon juice.
4. Sprinkle a little fruit sugar on berries to draw out the juices before chilling them for short time.
5. Dip oranges and grapefruit in hot water for 2 or 3 minutes; then in cold water; the peels and white membrane may then be easily removed. Chill fruit before serving.

THE QUESTION BOX

Mrs. G. M. asks: Which is the best way to make iced tea?

Answer: There are two accepted ways to make iced tea: take your choice. (1) Pour double-strength hot, fresh tea over glasses filled with ice cubes or crushed ice. The ice chills and dilutes the tea at the same time.

Or (2) cool average-strength tea before serving time. Then pour it over glasses half-filled with ice.

Mrs. D. G. asks: What is the secret of making a "short" pie crust?

Answer: Our neighbour says that chilling the pie dough for even an hour will do the trick. It should be wrapped in wax paper and placed near the freezing unit of the electric refrigerator to chill quickly.

Mrs. S. R. asks: How can you prevent the slices of plums from bursting during the canning process?

Answer: Prick with a fork or drawing needle when washed.

EX-PEACH KINGS

The one and only "Boob" Schwab who has almost as many years in baseball and softball as the great Connie Mack, will be the field general of the all-stars and he has lined up a smart bunch of horse hide tossers to give the TeePees a whale of a game. His line at the present time is:

Pitchers—Gordie Buchan, Grimsby; Russ Tufford, St. Catharines, (an old Peach King); Johnny Bedot, Smithville.

Catchers—Mel Smith, Grimsby; Womie Mattiason, Burlington; Book of Smithville.

1st Base—"Red" Mason, Grimsby.

2nd Base—Metcalfe, Grimsby; Mounties; Murray Comfort, Smithville.

3rd Base—Carpenter, Winona; Shortstop—Kopulous, Winona; Left Field—Souter, Winona.

Centre Field—Gregory, Grimsby; Lane, Smithville.

Right Field—Collins, Winona.

Umpires in all probability will be Father E. A. O'Donnell and Wray Fisher.

An admission fee of 25 cents for adults and 15 cents for students will be charged at the gate, as the snow fence that will be used by the Grimsby Legion team in the O.A.U.A. playdowns will be in place.

This game is being played for a worthy cause, that is why so many ex-Peach King ball players and hockey players, and present day Peach Kings are so anxious to give their services. Mike Sweet for a whole lot of years has given of his time, his work and his little mite of money to train hockey players and ball players. To look after their aches, pains and groaning. Now the lad himself is in need of help and it is up to the Peach King supporters in this district to attend the ball game tomorrow night. They will see a great game and they will be helping little Mike out of his trouble.

NEW MINIMUM RATE
parking sign will be erected at this point.

Fame travels fast these days. A perusal of township correspondence shows that already County Clerk W. H. Millward and the Hydro Electric Commission are addressing letters to J. Gordon Metcalfe as Township Clerk, although he does not take office until October First.

The Collector Vic Thompson reported that from April First to July 31st, only \$838 in tax arrears had been collected.

Joint Fire Committee accounts for \$21.00 were passed.

Water consumption in the west end for July was 717,000 gals.; east end 2,045,000 gals.

During the past three years council has made at least four attempts to have the Department of Highways declare No. 8 Highway from Kelson Avenue on the west to Hunter's Road on the east a "built-up" area and the speed limit for cars, trucks and buses placed at 30 miles an hour. Such a resolution was passed at the July meeting of council. At present it looks as if the council's action along this line will be in vain, as the following letter explains:

Mr. Thomas W. Allan, Clerk, Twp. of North Grimsby, R. R. No. 2, Grimsby.

Dear Sir:

Acknowledging your letter of August 1st in the absence of the Honourable G. H. Doucett, Minister of Highways, the writer notes the Resolution of the Municipal Council requesting the Department "to declare the area on number eight Highway between Hunter's Side-road on the east and Kelson Avenue on the west to be a built-up area." The Department does not declare areas as being "built-up" but recent amendments to the Highway Traffic Act automatically bring an area where fifty per cent of the frontage is "built-up" within the provisions of the thirty mile speed zone, in the same manner as incorporated cities, towns, villages, etc. are thirty mile limit areas.

The writer will be pleased to have this matter investigated by our Division Engineer and a report made on the Council's request. If the number and proximity of buildings along the highway, however, do not fulfill the requirements of the Act, it would not be possible for the Department to comply with the request of the Council.

Yours very truly,

J. D. Millan,

Deputy Minister.

Winona Farm Labor Co-operative Ltd., were granted a building permit for the erection of a one-storey frame building on No. 8 Highway west, opposite Kelson Avenue, at a cost of \$4,000.

Trustees of the Park school requested the school council for \$10,995.14 for school expenses for this year.

Of this amount only \$2,926.26 will be levied on the taxpayers, the balance of the amount is made up as follows: surplus \$2,319.98; Township grant \$1,600; Legislative grant \$2,900; other sources \$50. Teachers' salaries at this school total \$7,270.

Hagar's school will require \$6,

501.91, of which amount the tax levy will be \$2,879.94. The balance being made up of surplus \$1,253.37; township grant \$1,600; Legislative grant \$1,150; other sources \$17.00. Teachers' salaries at this school total \$3,304.

GRAPE GROWERS
that year. It was brought out at the meeting that the arrangement had worked to the advantage of the local here for some years.

Under a new scheme, Col. T. L. Kennedy, Ontario Minister of Agriculture, has set up a Grape Marketing Board to trial for one year for all grape growers to market their grapes at a price fixed by arbitration between the wineries and the growers, with a govern-

ment man stepping in for final decision if necessary. The locals were promised a vote in which, if 67 percent of their members favored joining the marketing scheme, they would automatically come under it and be subject to its rulings. It was brought to light at the meeting that there had been no vote taken and the local was brought under the Marketing Board. The Board had appointed a member to represent the Beamsville-Vinona local as one of their directors when no official sanction had been given by the local for that move. The member is D. G. Laundry who is also the secretary of the local here.

There was some discussion at the rather heated session as to any advantage the Marketing Board would have over the arrangement with the L. C. B. Six members came out and said that they were for the marketing board method as it had worked successfully with other commodities such as hogs, asparagus, peaches, cherries, plums, etc., and it should be suitable for grape marketing. Mr. Morley said that if it were the desire of the local to join the marketing board he would work for the interests of the growers but that he didn't think this unfair way of coercing them into that board was acting in a democratic way because of the previous promises made and not carried out, and that the local should fight this action on the part of the government with all the vigor they possessed. The overwhelming majority of the members agreed with him by a vote taken.

In short address Grant Laundry said that as representative of Clinton Township he had attended the meetings of the marketing board at St. Catharines. He said that Mr. Perkins of the Department of

Agriculture, and head of the Marketing Board, had promised that a vote would be taken and meetings held around the district.

So far no ballots had been sent out and Hon. Tom Kennedy had pushed legislation through putting the Board on trial for one year.

Laundry held him to blame for riding rough shod over locals.

G. V. Cook claimed that Col. Kennedy, who is now in England, was working in the interests of the farmer and if he had passed the legislation it was in the best interests of the growers.

The treasurer's report showed that there was a bank balance of \$180 at present and that there were \$2 paid up members for 1947.

A restraining order has been put on the account in the Canadian Bank of Commerce, Beamsville,

providing that no one may draw funds from it without the signatures of both the president and secretary.

The delegation who will take the petition to Toronto and present it to the Lincoln M.L.A. Hon. Charles Daley are: John Porter, Russel Culp, Richard Morley, Grant Laundry, and Jim House. The petition was signed by 40 of the 46 members at the meeting.

PROMINENT DISTRICT

Born at Springvale, he was the son of the late William Elmore and Mary MacDonald. He was in his 66th year. In 1908, he graduated from the University of Toronto, and after a year's internship at the Hamilton General Hospital, he began his practice in Campden, where he resided, and, in Beamsville, where he maintained an office. In 1913 he moved to Beamsville, where he has resided ever since.

Dr. Elmore had not been well for some time and it is believed his death was hastened by an accident in which he was involved about three weeks ago. During the past year, he had retired more and more from public life, carrying on only with the most essential of his duties.

He was a member of the United Church, and a member of Ivy Lodge, A. F. and A.M.

Surviving in addition to his widow, the former Irene S. Adams, are five brothers, John, Stanley, Wallace and Magistrate Thomas Elmore, K.C., all of Toronto, and Bruce, of Winnipeg.

The funeral will be held from the family residence, King Street Friday afternoon, at 2:30 o'clock. Entombment will be made in Victoria Lawn Mausoleum, St. Catharines.

The pioneers should have had a quiet and peaceful life. There were no neighborhood juke boxes in the old days.

You can tell when a woman has enjoyed her shopping tour. She has an arm full of packages and is tired beyond words.

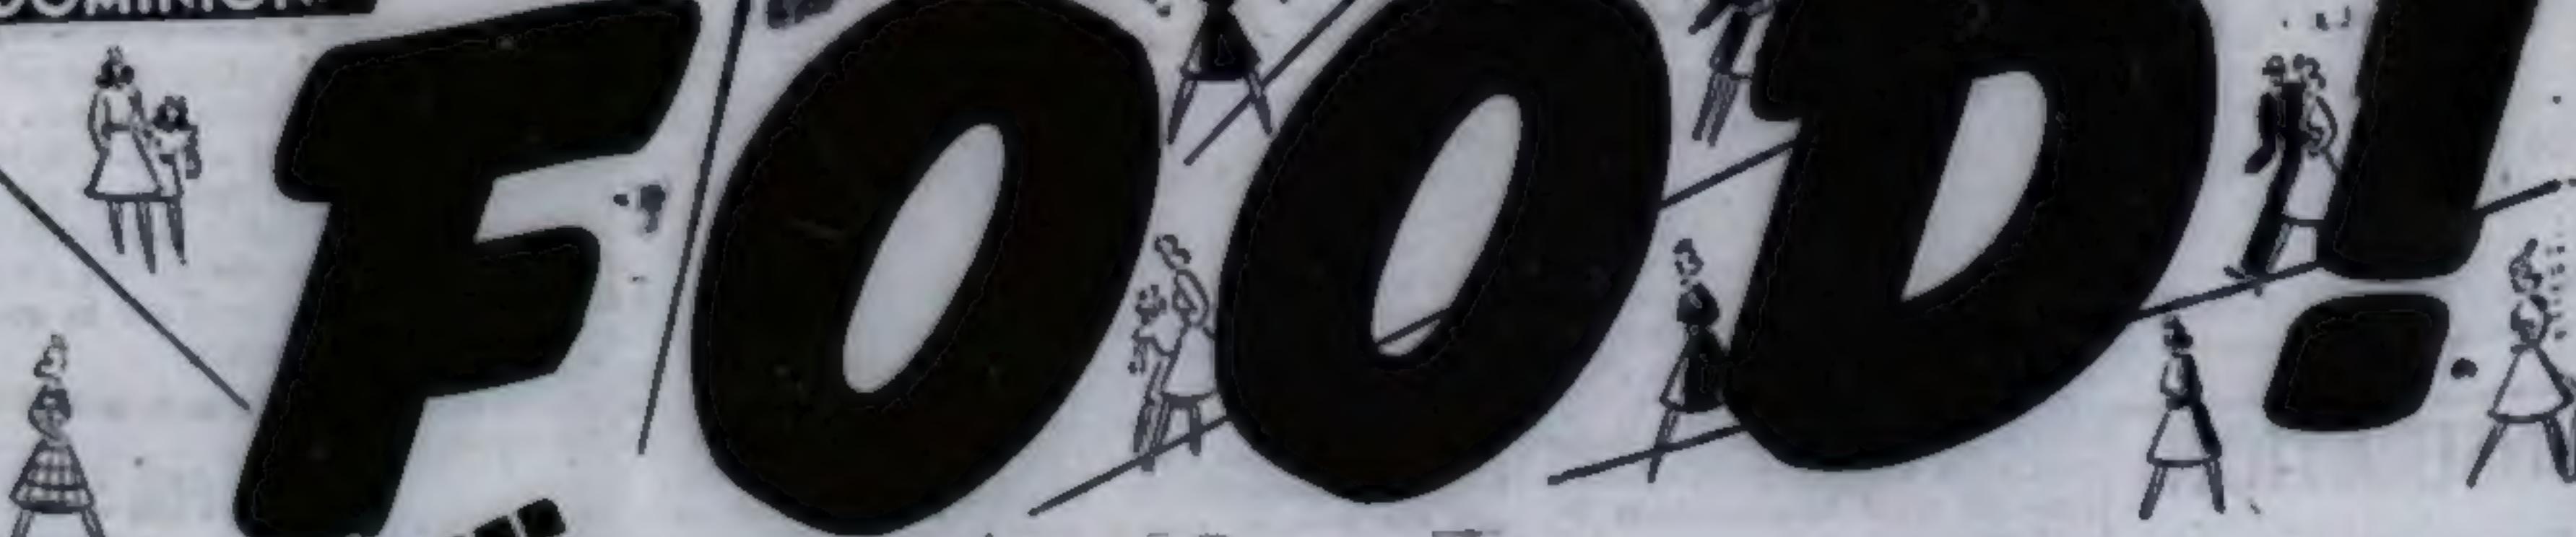

TOWN COUNCIL

Peach King Dairy full authority to deliver milk in the Town of Grimsby. That Thompson and Son have been fully licensed by this council as far as the town is concerned and it is not the intention of this council to cancel this license, and that they are opposed to a monopoly in this connection."

Hewitt-Price — That this council grant Thompson and Son a license for the delivery of milk and dairy products in the Town of Grimsby, under the standards of the Ontario Milk Board as usual."

That settled the milk question other than it would have been a good thing for the would-be dictators that sit on that Board to have been listening and heard the remarks that council members had to say. And those council members

TEA GOES UP

So far as is reported, not a single teacup reader forecast that jump in the price of tea.

In the golf season, many tee off and, with that stiff price increase, not a few will be off tee.

Now for the song of the reformed tea addict: "So long, Oolong."

Watch for the tea hoarders to storm the shop shelves, doing their familiar strip-teas.

It will put a crimp in social life, too, if nothing is poured but rain.

Some housewives will perform like snooty golf pros. They will practically ignore the caddy.

Once again the British consumer is maimed by the leaves. First tobacco, and then tea.

If a man is famous enough to publish a book under his name, he usually has enough money to get someone to write it for him.
